

MAGIC BBQ BAGS

Rockit tuff guard bags are the best way for any foodservice organization to take food from the smoker to the freezer / cooler and back up to a serving temperature without losing any moisture in your product. The Rockit tuff guard bags are temperature rated from -50 degrees F to 250 degrees F.

That means you can take most food product direct from the

smoker to the cooler/freezer in one step. The key here is **NO** product quality loss, and in many cases, an improved product quality.

We are selling this product to you for \$50.00 a case. Each case contains 200 magic bags. If your foodservice operation is banking or freezing food on a daily basis these bags are indispensable!!!

Out of the smoker

In the cooler/freezer

In the oven

In the holding cabinet
